

HAITI ONE YEAR LATER:

Seeking Lessons in the Rubble

A group of prominent Jewish leaders recently traveled with American Jewish World Service to earthquake-torn Haiti to learn about grassroots relief efforts and AJWS's disaster-to-development strategy. Marking the one year anniversary of the earthquake, they join us for an evening of discussion and reflection as they share firsthand accounts and the lessons they learned from their visit to destroyed Port-au-Prince and the surrounding camps. Following the panel we will have the opportunity to continue the conversation and interact with the panelists and each other. Wine and hors d'oeuvres will be served.
