STUDENT INFORMATION SYSTEM

ALL CAMPUS' COURSES
You must choose a term and location for anything to populate. Enter as much information as you like, but again the minimum populated must be term and location.

The “Detail” function is an important and often overlooked link that will show the following:

1. Course Detail – Title and Number of the course
2. Other Information – Elective
3. Course Notes – Description of the course itself
4. Location – Which campus the course is being offered
5. Seats Offered
6. Seats Available
The “Course” details function can also list other information about a course including additional expenses if needed and if consent of the instructor is required.

The Song of Songs: Men, Women, and God in Jewish Biblical Interpretation. This course will explore the variety of ways Jewish and Christian writers have interpreted the Song of Songs. Although many understood it as an allegory about the relationship between God and Israel or Jesus and Church, there were numerous variations, and occasionally, those who took the Song quite literally. This class will pay special attention to the way the interpreters recast the role of man and woman and reimagining questions of masculinity and femininity. **Enrollment Limit: 12 Students**

The number immediately to the left of “Detail” is the number of seats available/empty in the course at a given time and the number to the left of that is the number seats offered.

If a class is full the student can request permission to add the course by emailing the professor and the National Office of the Registrar [www.huc.edu/registrar](http://www.huc.edu/registrar).
6. Changing your password

The first thing you should do once you login to SIS is change your password using the Settings and Tool tab and selecting Change Password.

Follow the directions given to change your password to one you can easily remember, but one that is also secure.
7. Update personal information

If you have a change of permanent address, a new phone number, etc., you need to update your personal information.
- Select Settings and Tools – Update Personal Information.

Select the appropriate information you need to update. Notice that you can select other information to update besides just your address. Please note this will take a day or so for the change to reflect in your account.
8. Emergency contact information

You can enter emergency contact information when you select Settings and Tools - Update Emergency Contact.

And here is the page that allows you to enter your emergency contact information or to make updates to what you entered previously.
9. Information on administrative and financial holds

If there is a hold on your account, you will not be able to drop or add a class, view your grades in SIS, or get a copy of your transcript. Holds are listed on the first page when you log in to SIS.

Holds are blocks on your account by the Business, Financial Aid or the National Registrar Offices. The Hold Description conveniently gives you the phone number of the office to call to find out more about the hold.
10. List of courses being offered for a semester

To obtain a list of courses being taught at HUC-JIR, select Student Records – Course Tools - Course Registration - Select a Term - Add Courses - Select Location.

Make sure to click on the Continue in the middle of the screen if this appears.

Click on the correct catalog and then click continue.
If you see the screen below this means that registration is closed and you will need to contact the National Registrar’s office for any further assistance.

Once you click on the catalog year the screen below will appear.

Click on the Add Courses button to register for classes.
Below is the dialogue window that you will get when you make this selection.

You must select a Location. The other selections are optional.

You will then be able to register for courses.

If you do not make any other selections, this will give you a complete list of all classes taught by HUC-JIR. You can view the courses taught by a specific department, certain time of day, or those taught by a specific professor.
11. Registering for cross-campus courses

During the Fall and Spring semesters, and occasionally over the Summer, courses are broadcast in real-time between HUC-JIR campuses. A list of these cross-campus courses will appear on the National Registrar's webpage: [http://huc.edu/academics/national-registrar](http://huc.edu/academics/national-registrar) before web registration begins. This list will be updated periodically in case cross-campus courses are added or cancelled.

When registering for a cross-campus course, please note the campus it is being broadcast from. When you log into web registration, select the campus that the course is originating from and choose it from that campus's list of courses to be added to your course schedule. Please note the time difference between our Eastern time zone campuses and our LA campus.

Before you register for a cross-campus course, please consult with your academic program director or academic advisor to make sure that the course will count toward the requirements of your academic program.
12. Student self-registration guide

Note: If you have any questions or problems with your schedule, please contact your Program Director. The Office of the National Registrar can provide only limited assistance and they will always ask you to see your Program Director first.

Login to SIS as usual. Choose Student Records – Course Tools – Course Registration.

Enter the catalog year for which you wish to register and click on continue.

To add, or to enroll in a class, click on the “Add Courses” button.
The screen below now appears. Select as many options as desired to narrow the number of courses displayed. If no options are selected, all the courses offered by HUC-JIR will be displayed. It is usually a good idea to select Location to see only the courses offered on your specific campus.

For this example, we selected Education (EDU) for Department. This lists all the Education courses offered this semester. To enroll in a course, click the box on the left. Click on Detail to find out about courses fees or additional expenses associated with the course or if the course requires consent of the instructor.

Note that you can also click under Enroll Type if the course you want to take is for credit or audit. The default in SIS will always be for credit, so please be aware that if you intend to audit a course check the Enroll Type and click the button listed as Audit.

After you have clicked on the “Register” button, click on See Detail to return to the Online Registration screen. The course registration screen will make you aware of how many classes you have successfully registered for, or if you have any conflicts with other classes.

**Pending Registration -- see reasons below**
13. Pending registrations

Notice that if there is a Pending Registration indicator these are the reasons you will not be able to register through SIS:

a. a time conflict
b. after the first two weeks of school
c. a summer intensive which has begun
d. exceeded the 18 credit hours per semester rule that is contained in the National Student Academic Handbook

Please contact the National Registrar’s Office to remedy any issue listed above. Clicking on the Delete link will remove such courses from the pending list and give you the original list of classes that you have registered for.

If you exceed the 18 credit hours:
   a. You will need to attempt to register for the credit hours above 18, which will then go into “Pending Registration.”
   b. Contact your Program Director for permission and have them email the National Registrar’s office with verification. The National Registrar’s staff will then “force add” the additional class in the SIS and let you know of the change.

To add another class, just click on Add Courses and repeat the process as listed above.
If the course you want requires the professor’s permission, this will be the screen that you will see:

The faculty member will be notified through SIS that you wish to take their class, which they will approve or reject. Either way the professor will contact you via email concerning your registration. If the professor has given his/her consent through SIS, you can now add the class in Course Registration. You will not be enrolled in this class until you go into your SIS account under Course Registration and click on the Reprocess Pending button, which is circled below. Once you have completed this process your name will automatically appear on the professor’s class roster and your student schedule.
Don’t forget to log out when you finish with changing your schedule. This is especially critical if you are using a public-use computer.

After the end of the second week of the semester a student may not add any courses to his/her program. Using the Student Information System (SIS), students may drop a course before the semester begins and during the semester until registration closes. A student may drop a course until the end of the second week of classes without a notation appearing on the student’s academic record. After the close of registration, students must use an add/drop form. These are available on the National Registrar’s website. In intensive courses or in the SJNM summer session, students may only add a course prior to the second meeting. Withdrawing from an intensive course after the second session will incur a grade of “W.”

Students will need to contact the National Registrar’s Office to make all changes to their schedule after the first two weeks of classes. Please refer to the academic calendar for exact date. www.huc.edu/registrar
14. **View and print your course schedule**

Select Student Records then under Schedule Information heading choose Student Schedule (detail). This will give you a detail of everything that you have taken at HUC-JIR.
